

Instructions

1. Select your station out of the list of stations

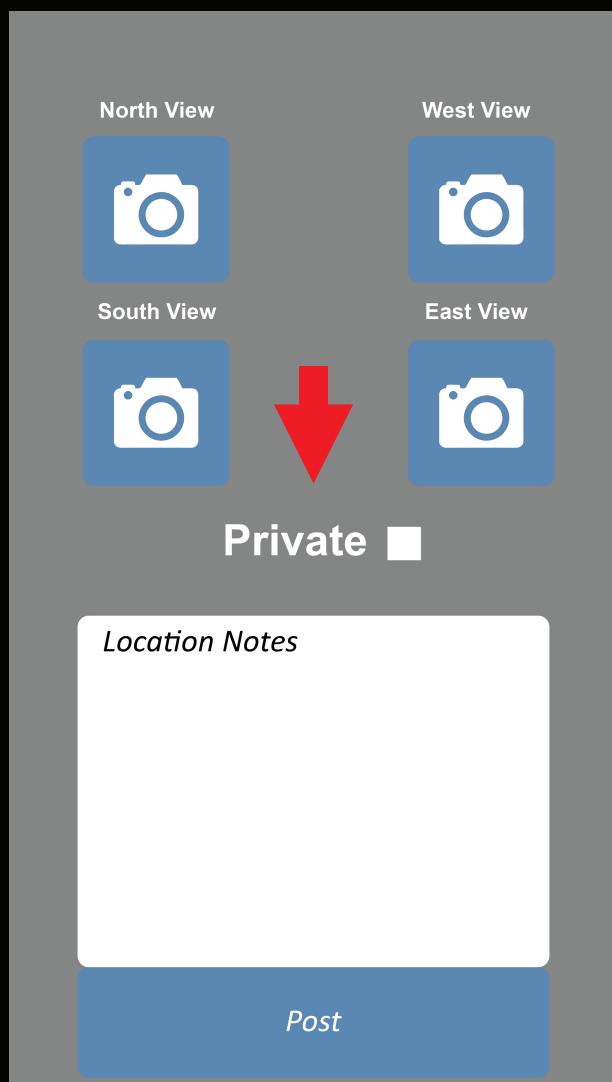

2. Select whether you want to update or make a new post to your station.

4. You may edit your coordinates by pressing the "Edit" button in the location field.

5. Upload the corresponding pictures of North, South, East, and West of your gauge. As well as a sky view and of the gauge itself.

6. Add any notes that you would like to say about your location, and check the privacy checkbox if you would like to keep your post from the public.
